Chats With the Puzzlers

For you have all come trooping back like a band of naughty children since I sectured you for not sending in the solutions which you had made at home

Why, I never thought of it in just the light which you threw upon it in your puzzle talk of yesterday afternoon, Miss Carroll," writes one puzzler. "And twice I have won prizes when I submitted my solution very early, but always the week after my mit any solution at all, for I said to myself: stroke of good luck I would not sub-

myself:

"I won the prize last week, and I wouldn't be likely to come in for an award this week, so what's the use?"
"Now, I am confessing this, because I presume upon the fact that you will overlook my selfishness, for I am going to do better in future."

Despite the good intentions of members of our puzzle circle, however, I am amused at the number of solutions received containing blank after blank. One clever Member of our circle, Lila P. Wallace, writes:

Wallace, writes:
"I am sending in my list of answers the locoed quotations, but must adit that numbers 2 and 16 refused to straightened, upon the plea, I supe, that 'too much familiarity breeds

contempt.'
"These are certainly every day 'saws,'
and I've enjoyed the work very much,
and only hope the puzzler who has
straightened number 2 won't catch up
with me before Saturday afternoon.

Prizes Offered Puzzle Solvers.

Weekly prizes of five, three, and two dollars, respectively, are given to the contestants for the puzzle printed on the Woman's Page of the Sunday evening edition of The Times each week for the three solutions adjudged worthy.

The contest, which closes at 3 p. m. on Friday of each week, is open to all who care to solve the puzzles. The awards are based, primarily, on correctness, timeliness, and neatness. Originality in presentation also receives consideration in award-

Incidentally, I'm working for a prize this week!"

Mrs. A. L. Lewton, of 350 Westminster street, writes:
"I am sending my incomplete solution of Sunday's puzzle. I have succeeded in solving fourteen out of nineteen numbers. The other five simply defy me, and number 2 is certainly a 'poser.'"

And even so capable a puzzler as Edna M. Frost, one of last week's prize winners, says:
"Number 2 has proved quite too much for me, but I am sending in my list of solutions, nevertheless."

"I don't know," replied Sammie, "unless it's his rheumatism again."
"No, it can't be that. Don't you remember, the red fairy cured him?"
"Maybe it came back."
"Oh, no: fairies don't do things that way. I guess he must have indigestion. But I wish he wouldn't be so cross, especially when mamma has a headache and Jane Fuzzy-Wuzzy can't come out to play with us. Oh, dear! Isn't it too bad?"

"What's too bad?" asked a little voice, under a big clump of grass, and at that noment what should come walking out but a little bink fairy. Oh, she was the dearest little thing you ever saw! I just wish I could take you to see her, but it's not allowed. Some day, perhaps—but there, I must get on with the story. Well, the little pink fairy stood out in the sunlight, and she asked again, "What is the matter?"

"Oh," explained Susie, who, by this time, had gotten used to fairies of all kinds, "mawma has a headache and I'ncle Wiggily is cross."

"Headache eh? Uncle Wiggily cross? Perhaps his glasses do not fit him," suggested the fairy.

Car Sickness.

R. M. T.—I am told that table spoon full of lime water, taken at intervals of an hour and a half or two hours on the train, will relieve car sickness.

You probably know that champagne may always be counted on to allay the nausea resulting from the motion of a car or ship. Lemon and salt is an even simpler remedy that is always more or less effective.

Venus still house a doubtful position, helpful and fortunate for women in some aspects, but qualified by warnings and dangers in others.

It will be well for both women and men in this period to refrain absolutely from discussing the affairs of others, even in the most apparently harmless and inoffensive way.

There is an evil sign over those who are unkind, treacherous, or deceptive toward women, and women must be exceedingly careful to avoid any actions of a nature that may be misunderstood.

Women employes, and especially those who do affice work, must be on their stood.

Women employes, and especially those who do office work, must be on their guard against errors. These are most likely to arise from undue haste or from preoccupation.

All persons, and women especially, should abstain from anything speculative in this period. There is no dependence to be placed in luck, and everything undertaken today should be safeguarded against contingencies.

In this case a tallored blouse of soft tucked mull may be substituted.

These tucked mull blouses are very fashionable this season, and they are made to fasten in front, the opening being finished with a frill of pleated mull.

White Frock

For State Occasions.

In such an event a white frock may be worn if it is not too elaborate in style to pass muster during the long day. The marquis dresses of white cut and pretty yet simple trimmings of tucks and embroidery, with a minimum of lace insertion, are very satisfactory for such purposes; and these little white frocks are not at all expensive.

"Oh, I don't know," replied her brother. "Spose we play stump tag?"

"All right; you're 'it,' Sammie," called Susie.

So Sammie began to hop after Susie.

Nou see, when you play stump tag you have to keep on a stump if you don't want to be tagged. It's lots of fun.

Try it some day, if you can find a place where there are plenty of stumps. Well, after playing this for some time, the rabbit children got tired. Then they played other games, and they were making quite a noise, when Uncle Wiggily.

Longears ame out.

Then sammie and Susie were quieter for a time, but soon they were almost as noisy as ever.

"Now you must run right away from here!" cried Uncle Wiggily, coming to the door of the underground house again, and he spoke still more crossly." "What do you s'pose alls Uncle Wiggily.
